Company Information

Mission

Our mission is to provide both the public and private sector with premium quality engineering, management and inspection services for value-conscious clients. **Borrel Engineering, LLC** focusses on delivering our services with accuracy, integrity & specialized expertise to provide a superior customer service experience.

Overview

Borrel Engineering, LLC is a multi-discipline firm offering professional engineering services, including: civil, structural, chemical, process, electrical and environmental engineering and planning. We also offer inspection services, Certified Project Management (PMI), Certified Building Inspections and construction engineering services. Since Mr. Borrel launched his entrepreneurial vision in 2008, the growth and success of this enterprise is the result of the conscientious performance of our very committed staff, our responsive service, and our ability to provide technically sound professional services to our growing list of US and international clients.

Affiliation

Borrel Engineering, LLC is working in affiliation with Vepica, an international engineering, design and construction firm with over 35 years of experience and over 3,500 projects developed worldwide. With access to the over 1,500 employees and ISO 9000 certifications in various areas, the alliance with Vepica offers additional breadth and depth to the **Borrel Engineering, LLC** list of services.
